TECHNICAL DATA

#40: PVC 150 COS BLACK CONVEYOR BELT

A standard in the industry for general conveying, its all-polyester singleply interwoven carcass offers low stretch, excellent fastener retention, and good tear resistance at an economical price. The applications are endless and include package conveying, fruits and vegetables, light grain handling, and baggage; almost all processing industries use this belt.

PLIES: 1 | TOP COVER: BLACK SMOOTH PVC | BOTTOM COVER: INTERWOVEN FABRIC
